Important Notices / Special Requests*

Due to COVID-19, components of your vacation such as flight, hotel amenities services, excursions, ground transport etc. which are provided by third-party suppliers may be different than advertised including being reduced or unavailable. While Sunwing will take reasonable measures to ensure that all components of your vacation are as advertised at the time of sale, by booking, you understand and accept that Sunwing cannot be held liable for such changes. If Sunwing becomes aware of such changes in advance, it shall, in certain situations, promptly provide notification to you and offer a refund or comparable alternative travel services acceptable to you. As announced by the Government of Canada, effective November 30, 2021 all air passengers 12 years of age and older departing from Canadian airports must be fully vaccinated to travel, with limited exceptions. Air passengers are required to provide proof of full vaccination from federally accepted vaccines taken no less than 14 days before travel. Limited exceptions will be granted for medical or religious reasons, and air passengers will be required to provide additional documentation to be considered exempt. Those who are exempt will be required to provide proof of a negative COVID-19 molecular test result taken 72 hours before the scheduled flight departure. Also, passengers must complete a declaration confirming they meet the requirements for travel and must be prepared to show proof of either requirement upon request prior to boarding. Failure to comply will result in denied boarding and may result in a fine up to 5,000 per violation under the Aeronautics Act. As travel requirements are changing rapidly, it is the traveller's responsibility to check the entry requirements of the country they are planning to visit. For return travel, please review the entry requirements into Canada. Unvaccinated travellers 5 years of age and older must provide proof of a valid COVID-19 molecular test result prior to boarding a flight to Canada. Negative molecular test results must be taken within 72 hours prior to departure. Previously positive molecular tests must have been administered within 10-180 days prior to departure to be acceptable. Travellers 5 years and older also have the option to demonstrate proof of a negative Rapid Antigen Test (RAT) as an alternative to a molecular test (e.g. a PCR test). Antigen tests will need to be taken a day prior to the scheduled flight departure and must be administered by a laboratory, healthcare entity or telehealth service provider. Fully vaccinated travellers five years of age and older are NOT required to provide proof of a negative COVID-19 molecular test or Rapid Antigen Test (RAT) before travel to Canada Effective April 25 2022, travellers under 12 years of age who are travelling with their vaccinated parent, step-parent, guardian or tutor are exempt from the requirements to provide a test prior to departure to Canada. Travellers entering Canada must submit all relevant information on the ArriveCAN app or online at Canada.ca ArriveCAN including contact details, travel history and proof of vaccination.

* Please note that while effort will be made to fulfill requests, they are not guaranteed.

Documentation

Canadian Citizens must carry a valid Canadian Passport please visit www.travel.gc.ca. Non-Canadian Citizens please contact the relative Tourist Board or Consular Office prior to booking or contact Sunwing for further assistance.
